Dear Vicky and Kerry Dunn,

Greetings from South Africa in the name of our Master Jesus Christ. Thank you very much for your letter dated November 2006. I should write you a letter before Xmas, but due my over working I delayed.

We really enjoy your teaching cassettes, it really bless us. We gave to those men and women who can understand English and they get more information from them. Some of the audio cassettes I'm going to convert them to CDs as most of the people have CD players even in their cars.

Your teachings helped me a lot, especially when I prepare my messages and teaching in the class. I don't have enough study materials so your cassettes are the source of my teachings. I thank God for that.

Remember the name of our Bible School is: "BACK TO THE BIBLE ANNGELOS", we are not connected with any church whatsoever; we are just messengers of the Word of God, urging people to go back to the Bible.

On the 2nd December 2006 we had about 73 students of which 11 of them completed their three year course and 58 received their 1st year course certificate and the other 4 received their Sunday School Teacher's certificate. We are so excited that we can reach more people through training, especially the African Independent Church Leaders.

Enclosed a photo of myself on the day of graduation presenting Diploma to one of our students.

May good Lord bless you and other brethren.

Yours in Christ's Service,

E.L. Mashao
